Dr. M. Brandon Johnson and his clinical staff would like to wish everyone a Merry Christmas and Happy New Year! It's been a great year of success stories. We had 414

surgeries, 10 total labral reconstructions and zero hip infections. We love watching our patients get back to the sport they love and enjoy an active lifestyle, making life easier and pain free. This past year, our practice grew and we added Katrina Stewart as our new Physician Assistant and Kelly Tate, as our new Medical Assistant. They are a huge asset to our team. Our office runs very smoothly with these new ladies and we appreciate them very much.

True Hipsters

This year marked the inaugural run for the Dr. Johnson *True Hipsters* relay team during the OKC Memorial Marathon. The *True Hipsters* finished the race in 158th place out of 800.

Several of Dr. Johnson's patients and staff members comprised the group. The patients that ran had been told in the past they would probably never be able to run again because of their hip injuries. But Dr. Johnson and his team treated their hip disorders and now they can run pain free! The *True Hipsters* had a final time of 4:10:04. In the Open MX division alone, they ranked 48th out of 225.

If you would like to join the *True Hipsters* for the 2018 OKC Memorial Marathon, contact Denise Miller at Millerd8642@gmail.com.
